Derwent Publication XP002062797 entitled "Oriented metallocene linear low density polyethylene film uses ...."

### REMARKS

This Information Disclosure Statement is being filed before a first Office Action on the merits. Therefore, applicants submit that no fee or certification is necessary for consideration of these references.

Citation of any reference or other information herein is not to be construed as an admission that the reference or other information is necessarily within the invention field of endeavor and/or that the reference disclosure or other information is otherwise necessarily prior art with respect to the instant invention.

Also, the right to later set forth how the instant invention is distinguished over the disclosure of any reference or other art, including the disclosures of those references and other information discussed herein, that may be cited by the Examiner in rejecting a claim in the instant patent application is expressly reserved.

The citation of the above documents and publications is not to be construed as an assertion that more pertinent art could not possibly be in existence.

It is respectfully requested that the Examiner indicate consideration of the cited reference by returning a copy of the Form PTO-1449 with initials or other appropriate remarks.

Respectfully submitted,

By:
